## Afterword

**A**merica was bankrupted for the first time on 1 January 1788 as the United States. This came about through the various wars in America for independence from Great Britain and slavery, which was a construct, as slavery was about to be made redundant by the combine harvester.

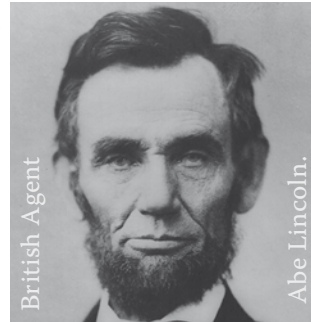

The combine harvester was first patented 17 years before the Civil War, in 1834, by Hiram Moore. The same year, Cyrus McCormick patented the mechanical reaper. This made slaves too expensive to feed, and by the time of the Civil War (1861) many of the slaves in the South and all the slaves in the North were already free.

The British purpose of these wars was not to win them, but to continue them so that the United States would be bound to Great Britain via debt. This debt had more rule than a colony, is more hidden than a colony, and lasts longer than a colony. This debt to Great Britain still rules America to this day. These British-created wars included the War of Independence of 1776–81 (aka the Revolutionary War), and the American Civil War of 1861–65 in which President Abraham Lincoln was a British agent battling to end 'slavery'. Instead, Lincoln enslaved all Americans.

It is suspicious whether Lincoln was shot or a body double was shot. There were no photographs of Lincoln on the balcony and no photographs taken of him dead. The doctor who treated some of the conspirators was also executed in spite of his defence plea that he was merely a doctor rendering medical advice and treatment. This is a major hallmark of a canned meat operation. Abraham Lincoln's father Thomas Lincoln never physically existed. Abe's father was the extremely wealthy A. A. Springs, whose contacts were used to provide Abe with an estate to live on, post-mortem.

Great Britain (as the United Kingdom) collects taxes off America (as the United States) to this day. The American IRS (Inland Revenue Service) is not an Agency of the United States, but of the United Kingdom.

Here's a brief of how it was worked.

Everyone in the United States is considered a business involved in commerce and taxpayers are considered a business deal in the treaty claims between the US and the UK, **with their income tax paid to the UK**. These US-UK Tax Claims, paid by US citizens, were part of a Business Master File (BMF), non-refile DLN. IRS Publication 6209. Its 467 pages show most citizens fall into the 300-399 blocking series.

In 1991, the codes were changed from Business Master File (BMF) to Individual Master File (IMF). The IMF 300–309, Barred Assessment, CP55 generated valid for MFT-30 uses the 1040 form as payment of tax to the UK. The IMF 310–399 reads the same as IMF 300–309. The IMF 300–399 also reads the same as the BMF 300–399. Nothing changed in 1991, just the codes were drifted and re-hidden as Individual Master Files (IMF 300–399), which covers most citizen taxpayers.

The BMF form used was the 8288 and 8288a of the Foreign Investment Real Property Tax Account (FIRPTA), found in chapter 3 of the IRS Law Enforcement Manual in the Office of Management Budget (OMB) in the Department of Treasury under the List of Active Information collections, in the Approved Under Paperwork Reduction Act, under number OMB 1545-0902. This is a Withholding tax-return for dispositions for foreign persons of US real property interest-statement.

Few people use the 8288 FIRPTA form. Most now use the 1040 form. Both forms are **payment of foreign tax to the Monarch of England**.

**American tax is a debt collection payable to the UK under IMF 300–399 on the 1040 form for the 1776–81 War of Independence. Just as “war is a bank draft” and not a government draft, “tax pays for war debt” in preference to internal progress.**

Americans look to the US Constitution (26 U.S.C.) to find if they’re liable for Income Tax, but it’s not there. **Tax is a debt collection through a private contract between the Constitution of the United States, Article 6, Section 1 and various agreements, many with the United Kingdom.** The United States has been in this financial servitude since the Treaty of 1783, with the United States bankrupt from 1788.

Under these agreements, US citizens are being farmed on a “plantation” by the British Monarchy and are only meant to have enough money left for food, clothing, shelter and reproduction. Tax is supposed to take everything else.

The money you think you own, you are just renting. The property you think you own is just being held in your name. **You are a Slave to the Cons of History.** You are worse off than a slave because you are also a debtor and have to find your own food and shelter after you have been taxed.

“The right of . . . transmission of property, as an absolute inalienable right, is one which has never existed since governments were instituted, and never can exist under government.” (*Wynehamer v. The People* 13 N.Y. Rep. pp. 378, 481.)

Great Britain to this day collects taxes from the American people. It is not the only country she collects taxes off. Any other country where Britain had a civil war is also in debt to Britain. Until recently, New Zealand was still paying Great Britain for funding both sides of the Maori Land Wars and Australia was funding Great Britain for supplying the continent with Founding Father convicts who believed kangaroos would eat them.

The United States is desperate to repeat this con. The US wants to declare democracy in Iraq so that it can charge Iraq for creating democracy and then take 25% of their oil for 220 years. The US can charge Iraq 100% of their oil production while they are occupying Iraq creating that democracy, so the US will continue to occupy Iraq and ensure democracy does not exist until Iraqi oil is past its peak. As a result, Iraq is further from democracy than any other country in the world.

The US gave the new Iraqi government four days to sign over all of Iraq’s oil. Since the new Iraq government was an American puppet government under threat of murder by insurgents, they had no choice.

To achieve this con, America engaged Israel, who supplied their Druze to kill American soldiers. Special Forces then attacked oil installations. Counter-intelligence media recorded this to lift pump prices. This con came with huge support from Fox News and its owner, counter-intelligence agent Rupert Murdoch, who kidnapped his own staff in the Middle East to create further distraction news.

Little did the Iraqi-American puppet government know, it was all in-house. The most effective insurgents in Iraq were American-Israeli Druze agents.

### **America Fights for Oil**

America fights for oil. Religious and humanitarian issues are just a front. The United States has 2–3% of the world's oil reserves, uses 26% and imports 55%, whereas Muslim countries hold 76% of the world's oil reserves and use less than 10%. In 1989 the US imported US\$5.5 billion worth of oil from Iraq. As a result, America goes to war for oil.

To justify America's ongoing wars for oil, the Pentagon and American Intelligence have become heavily involved in PSYOPS against Muslims in the West, Muslim leaders, and Muslim countries. To make this war-for-oil more dependable, many Islamic leaders have been American agents since 1925. The first Shah of Iran was also a British agent.

The American public demands a "Just War". This requires the Western media to label Muslim countries as "Evil, an Axis of Evil . . . rogue States . . . failed nations . . . and holding Islamic Terrorists". Any pre-emptive attacks are justified as "self-defense . . . WMD . . . War on Terror . . . a Just War" and are designed to trigger civil war, change governments, depopulate, diseducate, disempower and create mayhem, all of which allow for the extraction of oil – the "spoils of war".

Americans are now beginning to realise that the terrorism is perpetrated by American agents and by Israeli agents and the agents of Israel, like the Druze. To present this illusion as convincingly as possible and for as long as possible, the US Government uses the media. The media has become the world's biggest ever counter-intelligence organisation, with Fox News hitting 80% false information and other stations eagerly following to maintain their ratings. Fox News and the US Republican Government work hand in glove worse than any Cold War propaganda machine.

The backlash to unjust American wars has been inter-ethnic solidarity, inter-ethnic immigration, a worldwide shared hatred of George W. Bush and his family, ongoing education about his occult secret society, and a rewriting of the history of CIA head, Vice-President and President George Herbert Bush. This was not part of the Pentagon PSYOPS plan.

The Pentagon PSYOPS shows local atrocities, followed by a humanitarian agenda, cultural lives saved, demonizing Muslim leaders labelling them Islamic-Fascists (most of them educated in the West as double agents to be removed as soon as their oil is needed), exposing Muslim customs so there is a victim group for Westerners to identify with (usually women, orphans and amputees) and exposing Muslim

world reserves), Angola (0.8%), Yemen (0.3%), Somalia, Sudan (2 million dead), Colombia (0.1% of world reserves), and Chechnya (Soviet & US and therefore a Zionist operation) with attempts at election rigging in Venezuela with 4.8% of world oil reserves.

“Sudan once gave safe haven to Osama bin Laden.” As such, it is listed in Washington as a state supporter of terrorism and US companies are prohibited from investing there. This allowed China to move in and China uses all of America’s oil tricks, only more obviously so. These include creating civil war around the oil fields. As such, China is the largest exporter of weapons to Sudan and its atrocious human rights record there is published by the American media. This is the main difference.

What the Pentagon didn’t count on was the massive support for Iran’s leader when he held a forum on the Jewish holocaust in December 2006. There are lies in history and we have to endure these lies as though they were our history. As a result, we can not learn from our history other than that “the truth is surrounded with a bodyguard of lies”.

Iran had protected itself from attack by signing a US\$70 billion oil deal with China two months prior in October 2006.

Such is politics and much of politics is oil.  
Such is history and much of history is lies.  
For the oil-rich African and Islamic nations  
they have never lived in history,  
they have only ever lived in the British and US oil cons.

suffering the retaliatory fire from skirmishes Israel's Druze<sup>8</sup> started. Israel use the Arabic-speaking Druze as agents provocateurs.

The Druze are now sitting in the back of mini-vans with Russian Dragnov SVD sniper's rifles accurate to 900 metres (600m at night) and picking off Coalition soldiers, resulting in the deaths of many volunteers and \$1800/day mercenaries whose pay goes into numbered accounts, which only they can access. If unclaimed, the money is returned to sender but counted as a war cost. Hired mercenary deaths are not counted in the death toll of Westerners. Iraq has simply been destroyed.<sup>9</sup>

The Druze founding leader, Fātimid ruler Tariqu l-Hakim, aka Al-hakim or al-Hakim bi-Amru l-Lāh, "Ruler in the Name of God", died aged 36 in AD 1021. The Druze then adopted the practice of taqiyya (dissimulation), concealing their true beliefs while outwardly accepting the religious beliefs of those around them. By 1167, Benjamin of Tudela had noted in his diary that the Druze were good friends with the Jews. In more recent times, 'Mount of the Druzes' in Syria was renamed 'Mount Lebanon'.

The Druze use a five-pointed star as their symbol. This is not to be confused with the Five Pillars of Islam, the six-pointed Star of David or the same phonetic spelling as "Jews" . . . but it could be taken as designed confusion and taqiyya (dissimulation).

The Druze are fluent Arab speakers with no Israeli accent. This allows them to hide easily amongst the Mulsim Arabs. Based in Lebanon, with smaller communities in

Obama has served as distraction news and has favour because he is not white, not Republican and says he will remove all US forces from Iraq within two months of taking office. In order to get in, he just has to be the opposite of President Bush – something Bush cannot do.

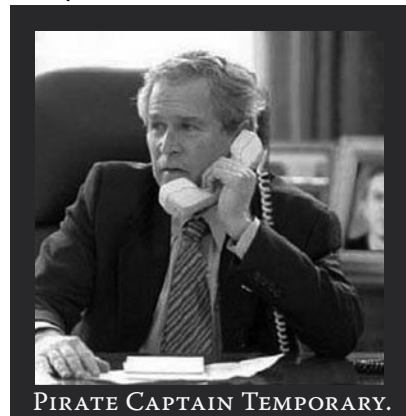

The same shenanigans that were happening in Europe in the 1600s and 1700s are happening today. Unless we are fully briefed, we haven't got a clue as to what is going on. Unless we are fully briefed we do not know what cons are upon us. All of history is a collection of cons and all we lack is a method to address those cons.

Perhaps the American people should start by stopping tax payments to the UK/British Crown for the War of Independence – which was no independence at all. The **American War of Independence** (1776–81) was a **War of Dependence** and the **American Civil War** (1861–65) was an **Uncivil War to enslave all**.

Since the 1788 United States' bankruptcy, the US has operated under laws of forfeiture; then the Congress Act of 1845 transferred Admiralty Law onto American soil. Admiralty Law is also International Law. Since 1933, the United States has also been under a State of Emergency, the War Powers Act and Letters of Marque (international theft and war) operating under the Executive Orders of the C-in-C. This has effectively made American presidents pirate captains running a 'Kingdumb' with an ongoing propensity towards war. Their main function is to steal resources for the British Monarchy. As such, George W. Bush's real title and code name is "**PIRATE CAPTAIN TEMPORARY**".

. . . . .

The real Saddam Hussein has an overbite whereas the doppelgänger Saddam on trial in Iraq had an underbite. After the supposed 'phone-camera-recorded' *execution* of Saddam Hussein's court body double on 30 December 2006, in which the fall was 2 metres high and the hangman's rope was 3.8 metres long, with a mattress to break his fall, Saddam Hussein was still on trial for killing 180,000 Kurds in the 1986/87 Operation ANFAL, along with six others.

On 8 January 2007 Saddam's chair remained empty. Because Saddam was officially considered dead, all charges against him were dropped.

Judge: "The court has decided to stop legal procedures against defendant Saddam Hussein, according to article 304 of the Iraqi criminal procedure law issued in 1971."

This was done so that after six years, if and when the CIA asset Saddam Hussein is found alive, he will be deemed to be innocent of all charges, as all charges against him have been dropped and you can't hang the same man twice, or charge him for the same crime once the charge has been dropped . . . and you can't charge a dead man.

Iraq's judicial system has proven itself time and again to be totally complicit with the Bush agenda to the extent that it is role-playing to cover up for the Bush homosexuality and the Bush-Hussein spy/sabotage/war-for-oil power relationship.
